

NEHA GAIKWAD

nehagaikwadwork24@gmail.com | linkedin.com/in/nehagaikwadd | github.com/NehaaGaikwad

EDUCATION

Vidyalankar Institute of Technology
Bachelor of Technology in Computer Engineering
• CGPA: 9.95 (Semesters 1–4)

Mumbai, India
Sept 2024 – Present
Expected Graduation: 2028

EXPERIENCE

Open World Holidays Framework Remote
Open Source Contributor 2025
• Translated **Nepali and Bangladeshi holidays** for all public holidays, ensuring **correct regional names**.
• Maintained **tests** and collaborated with **global maintainers** to ensure proper integration and consistency.
• Gained hands-on experience with **Git**, **pull requests**, **code reviews**, and contributed **open-source project**.

PROJECTS

Amazon Competitor Analysis Tool | *Python, Streamlit, Oxlabs, LangChain* [GitHub](#)
• Built a **Streamlit market research app** that analyzes Amazon products via ASIN and displays competitor insights in a clean dashboard.
• Implemented **Oxlabs-powered web scraping** to extract product, competitor listings and store results locally using **TinyDB**.
• Used **LangChain** with **OpenAI** to generate structured AI-driven market reports, positioning analysis, and actionable recommendations.

Credit Score Classification | *Python, Scikit-Learn, XGBoost, Pandas* [GitHub](#)
• Built a **multi-class classification model** to predict customer credit scores as **Good, Standard, or Poor** using financial and behavioral data.
• Performed **EDA, preprocessing, and feature engineering** to identify key indicators affecting customer creditworthiness.
• Compared **Logistic Regression, Random Forest, and XGBoost**, achieving the best performance with **0.8802 AUC**.

Crime Count Prediction | *Python, Scikit-Learn, XGBoost, Pandas* [GitHub](#)
• Analyzed over **1 million crime records** from Los Angeles to uncover temporal crime patterns and trends.
• Engineered **time and location-based features** to predict crime counts using machine learning models.
• Evaluated **Linear Regression, Random Forest, and XGBoost**, with XGBoost achieving the highest **R² score 0.58**.

EXTRACURRICULAR ACTIVITIES

Rotary Divyang Center 2026
Social Service Intern [Website](#)
• Assisted beneficiaries at a **prosthetics and orthotics center**, supporting administrative and service-related activities.
• Designed and developed the organization's official website, improving accessibility and digital outreach.

TECHNICAL SKILLS

Programming Languages: Python, C, Java	Developer Tools: Git, GitHub, VS Code
Machine Learning: Scikit-Learn, XGBoost, Pandas, NumPy	Databases: MySQL
Web Technologies: HTML, CSS, Flask	

CERTIFICATE

- **Machine Learning with Python (Residential Program)** – L&T EduTech, 2026

ACHIEVEMENTS

- Selected among the **Top 6 finalists** in the **Dr. Sanjeevani Memorial Day Elocution Competition**, demonstrating strong **public speaking, communication, and presentation skills**.
- Received the **Best Project Award** during the **L&T Machine Learning with Python Program** for developing and presenting **Credit Score Classification** and **Crime Count Prediction**, demonstrating the application of machine learning to real-world problems.
